PROGRAM DETAILS

OVERVIEW

This two-week program will be based at Guizhou University in Guiyang, Guizhou. Students will explore the diverse landscapes, cultures, and technological achievements of China through a variety of guided visits and activities.

SIGNATURE VISITS

- Anshun Huangguoshu Waterfall • FAST Radio Telescope
- Beipanjiang Bridge • Xingyi Geopark
- Geely Auto Manufacturing

ACTIVITIES & ACADEMICS

Through curated sessions and cultural experiences, students will learn about traditional Chinese culture, ethnic minority culture, and tea culture.

Assessments will be based on both written reflections and oral presentations.

ACADEMIC GOALS

Gain deeper appreciation for contemporary China and its technological, geographic, and cultural landscapes. Grasp concepts about-Chinese advancements in technology and deep-space exploration.

Instruction in English - UNA credit - Open to all majors.

COST

Estimated cost per student: \$4,176 (includes airfare, housing, meals, travel insurance, academic site visits, and local transportation).

Personal expenses (e.g., international cell phone plan, souvenirs, clothing, personal shopping) are **not included**.

EDUCATION ABROAD SCHOLARSHIP OPPORTUNITY

The anticipated award of individual scholarships for 2026-2027 is \$1,000 for first-time applicants.
