

Faculty, Staff & Student Guide for Connecting iOS devices to Campus Wireless

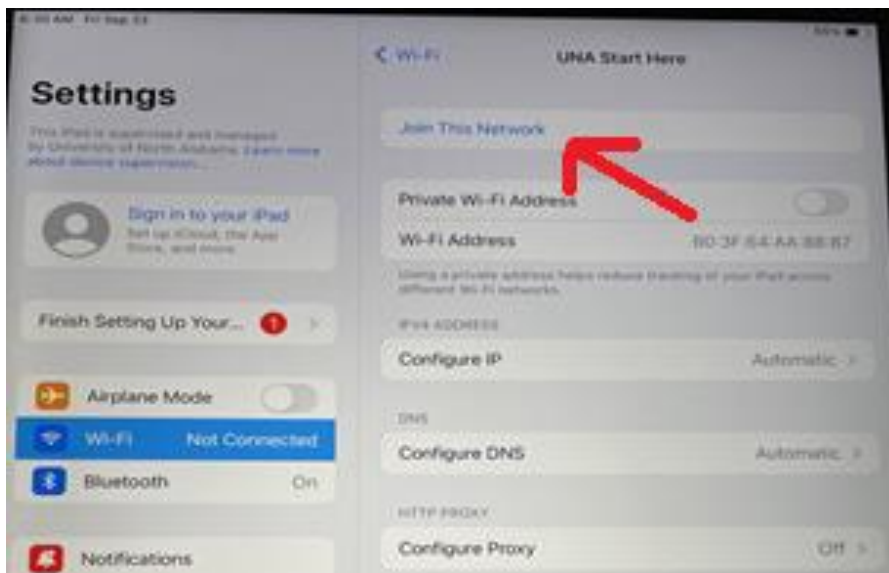

1. In Settings, make sure Wi-Fi is turned ON.
2. Select the **!** beside the **UNA Start Here** network.

3. Select the radio button to turn off **Private Wi-Fi Address**.

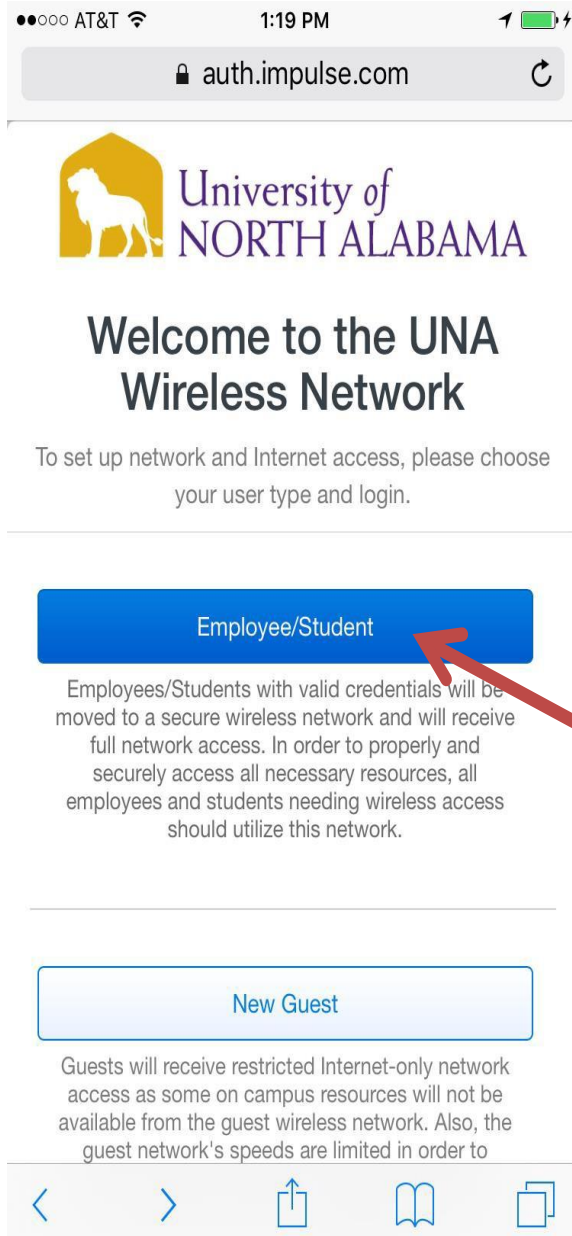

4. Select **Join This Network**

5. When your device shows connected to UNA Start Here, open a web browser and attempt to browse to any website.

6. The following screen should appear. Select **Employee/Student**.

The screenshot shows a mobile browser interface. At the top, the status bar displays 'AT&T', signal strength, Wi-Fi, the time '1:19 PM', and battery level. The address bar shows 'auth.impulse.com' with a lock icon and a refresh button. Below the address bar is the University of North Alabama logo, featuring a white silhouette of a horse in a yellow house shape, followed by the text 'University of NORTH ALABAMA'. The main heading reads 'Welcome to the UNA Wireless Network'. Below this, a message states: 'To set up network and Internet access, please choose your user type and login.' There are two main buttons: a blue button labeled 'Employee/Student' and a light blue button labeled 'New Guest'. A red arrow points to the 'Employee/Student' button. Below the 'Employee/Student' button, there is explanatory text: 'Employees/Students with valid credentials will be moved to a secure wireless network and will receive full network access. In order to properly and securely access all necessary resources, all employees and students needing wireless access should utilize this network.' Below the 'New Guest' button, there is another message: 'Guests will receive restricted Internet-only network access as some on campus resources will not be available from the guest wireless network. Also, the guest network's speeds are limited in order to'. At the bottom of the screen, there are navigation icons: a back arrow, a forward arrow, a share icon, a bookmark icon, and a tabs icon.

15. At this point, most users will be connected to UNA WiFi.

16. Depending on your iOS version, you may need to follow the on-screen instructions to complete the connection.

The screenshot shows a mobile browser interface. At the top, there is a navigation bar with a back arrow, the text "Back to Settings", the time "1:12 PM", and a battery icon. Below this is a search bar containing the URL "cloud.securew2.com" and a refresh icon. The main content area features the University of North Alabama logo (a yellow house with a white lion) and the text "University of NORTH ALABAMA". Below the logo is a white box with a light gray border containing the following text:

After configuring your iOS device, you may still need to connect to the **"UNA WiFi"** network:

To connect:

1. Go to the Home screen of your iOS device (press the **"Home"** button).
2. Tap the **"Settings"** icon.
3. Tap **"Wi-Fi"**.
4. Make sure Wi-Fi is turned **"On"**
5. Select the **"UNA WiFi"** network from the list of available networks.

When you have successfully connected, a small check mark will appear next to the **"UNA WiFi"** network.

At the bottom of the page, there is a footer that says "Powered by SecureW2". Below the footer is a navigation bar with five icons: a left arrow, a right arrow, a share icon, a book icon, and a tabs icon.
